

Toolflex Original System – a highly efficient marketing concept

Toolflex Original System is a quality Swedish product from Delex Teknik AB. The first holder was launched in 1983. Since then, Toolflex has developed into a leading tool holder system with thousands of satisfied users throughout the world.

Toolflex Original System is sold mainly through specialist retailers in the building, garden and DIY sectors. The positive, unique product features can be seen best if consumers can test the products for themselves. That is why we have devoted a great deal of effort to designing a strong marketing concept with inspirational packagings and clear, logical display racks.

Testing and display rack
A clear, logical, sales promotion rack fitted with holders mounted on a 90 cm rail, allowing consumers to test how the holders work. The rack has a concealed monitor power socket as standard. A monitor with a demonstration film is available as an option.

toolflex
Original System

– Perfect match!

A high-quality range of Swedish equipment holders to suits the majority of tools and uses

Delex

Simple! →

Hanging up and taking things down can be done using just one hand.

The holders can be easily adjusted sideways and the system can be expanded to the length you require.

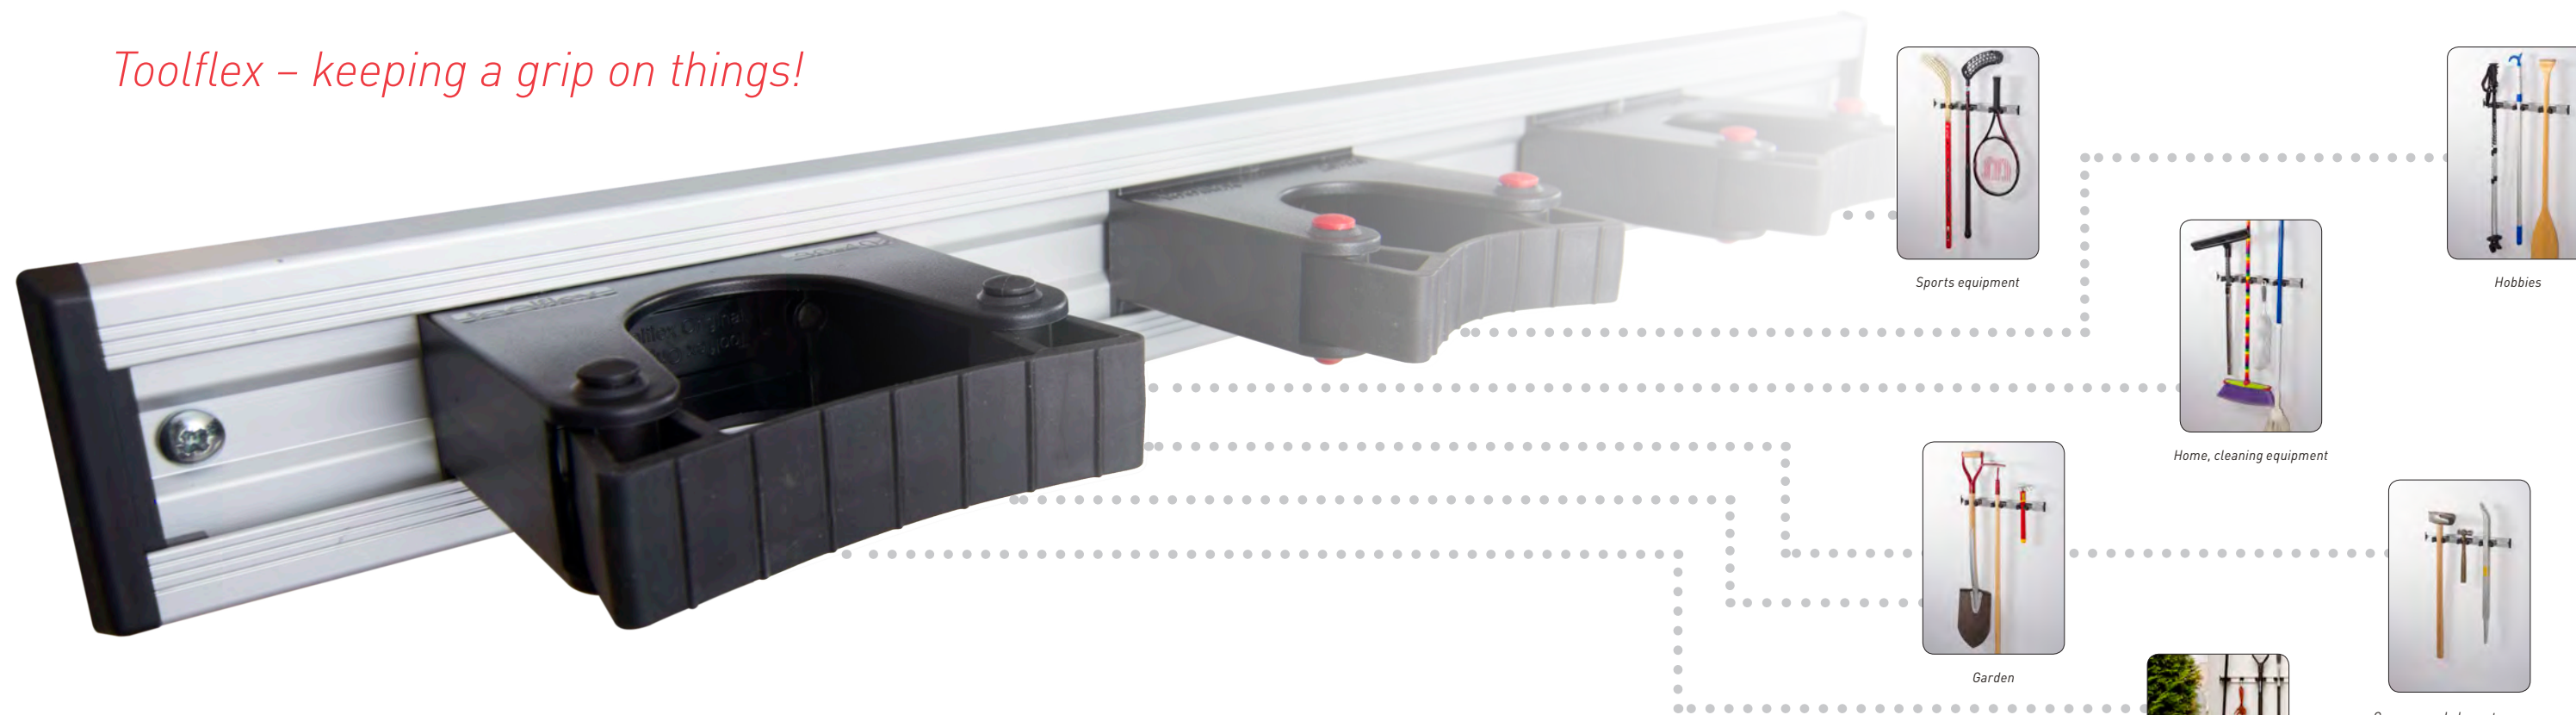

The holders have predrilled screw holes and can be mounted directly on a wall without a rail.

The Toolflex hook is inserted into the rail track and secured with a 'click'.

Toolflex – keeping a grip on things!

Tool holders with full functionality

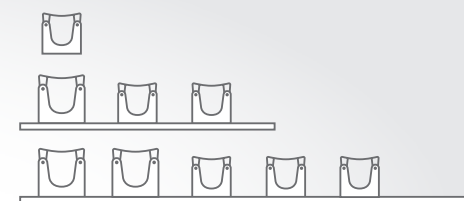

The Toolflex System is a range of simple, flexible tool holders for easy storage of handled tools and other items in most settings. Toolflex is the obvious solution when you need to store a large number of items in a small space. Suitable for indoor and outdoor use.

The holders are made of durable plastic with a flexible TPE gripping surface that can grab the tool easily with just the slightest push of the hand.

User friendly and flexible

The Toolflex tool holder only requires a simple, one-handed action to hang up or take down the tool and the ingenious design of the holder also ensures that heavy tools are kept firmly in place.

- Strong, recyclable materials (ABS, PP and TPE)
- Numerous uses, both indoors and outdoors
- Ideal for handles/tools 15-40 mm in diameter
- A complete product range
- Swedish manufacturing and quality standards

The holders come in packs of two for individual mounting or as a complete kit with a 50 cm or 90 cm rail.

The holder can grip virtually all shapes – triangular, square, round, oval ...
